TLS1 – Lighting Your Miniatures & Your Workspace

by Luci Hanson

Fee: \$86

Remembering what you learned in a seminar or presentation about LED lighting, & the processes associated with it, isn't always easy. Learn the easy way...with a live demonstration & take home a CD with all the instructions to refer to when you need them. Luci will share her knowledge of each LED application & type of lighting, as well as include some tips on making your own lamps & accent lighting. Learn about the latest battery cases with on/off switches. Attendees will receive all the basic items needed to light their minis in 12-, 9-, & 3-volt systems including the new LED-compliant power supply. Batteries ARE included.

TLS2 – Fireworks!

by Sue Herber

Fee: \$87

One of the most fun things to do at the fair is watching the nighttime fireworks display. Join me for some stories of memorable fireworks from my childhood. Your gift will be a fanciful ¼" hexagonal fireworks stand with a triple-tiered roof and shelves to fill with some fireworks...which we'll make at the luncheon. It will be a blast!

TLS3 – Landscape your Miniatures Like the Model Railroaders Do

by Winifred Schmidt

Fee: \$87

Learn how to make realistic small scale scenery with an emphasis on products & techniques used by model railroaders. Demonstrations & examples will include several types of grass surfaces, shrubs, plants, trees, & more. You will receive a garden base, several completed garden components, & landscaping materials to complete a garden of your choice.

TLS4 – Cooking with Janet: Blue Ribbon Fair Foods in Quarter Scale

by Janet Smith

Fee: \$87

Let's learn to cook Blue Ribbon winning fair foods! Your chef, Janet Smith of Desert Minis, Inc., will discuss the techniques for cooking a wide variety of foods suitable for submission at your local fair...including pies & cakes, canned fruits & veggies, fresh produce, & homemade breads! It'll make you hungry! While the gift will be quarter scale, the techniques discussed can be used for other scales. Leave the Theme Luncheon with fully illustrated instructions for making all the items discussed...and along with it, already-made quarter scale Blue Ribbon foods.
