TH3 – Spells and Potions by Marti Icenogle

Class Fee: **\$64**

Tucked away in the Scottish Highlands is Castle Dunham, the winter home of the Earl of Dunham. A large black wrought iron gate blocks the main entrance to the castle grounds. And the locals claim the spider-shaped lock on the gate turns into a giant spider if someone tries to enter without the gate key. There is more magic buried deep within the stone walls of the castle. Somewhere in the castle is the Wizard Ranulf's workshop where he creates all sorts of potions and spells to conjure magic for the Earl. In this class we will create the quarter scale wizard's workshop and furnish it with some magical books, a book stand, and scrolls, as well as potion bottles and several other magical tools. For this class you will need scissors, your favorite craft knife, fine pointed tweezers, quick dry tacky glue, ruler, small gluing jig, small clamps, and a couple of paint brushes. 4" x 4" x 3-1/2"
