London Flower Cart

Kits available in three sizes!

In May 2018, my husband Nick and I took a trip to London, UK. We had a great time and among the many places we visited was Covent Garden. In addition to the many craft stalls and street performers, there was a beautiful peddler's cart. Nick took a photo and it has been in the back of my mind to do a project based on it. Read the story on page 12.

The cart was designed by me, Susan Karatjas, and the arrangements of the flowers by our daughter, Pamela Ridgley. The cart is made in 3 scales.

The 1" inch scale (1:12) is about 8" long and 4" tall with a cost of \$85.00.

The ½" inch scale (1:24) is about 4" long and 2" tall with a cost of \$50.00.

The 1/4" inch scale (1:48) is about 2" long and 1" tall with a cost of \$45.00.

All the kits contain all the wood parts for the peddler's cart. In addition, the parts for 10 crates are included. Note that 2 of the crates do not contain flowers. Lastly, the kits for the plants shown are included. All scales have the same plants. In addition, there are illustrated instructions for assembling everything. However, you can use your imagination and recreate the arrangements.
