

Thursday Evening Workshop

A Chic Boutique or A Unique Boutique

With Sue Ann Ketchum

The Thursday Evening Workshop will be offered in 3 scales:

1" Scale \$95

½" Scale \$60

¼" scale \$51

When we travel anywhere in the world, what fascinates most of us after sightseeing are the unique shops, eateries, and boutiques where we find wonderful items native to that region. Shop window displays feature perfume, handbags, shoes, fashion, cigars, pastries, cheeses, chocolates, bread, toys, plants, flowers, laces, miniatures, wine, coffee shops, cafes, and more! What will your boutique feature?

Dimensions:

1" Scale: Height 10 ½", Width 10 5/8", Depth 4 ¼" interior plus 2 ¾" exterior walkway. The base will be 7" deep. The interior 4" depth will have etched floorboards. **Once the dimensions for ½" and ¼" are available we will update this form.** The exterior sidewalk will have etched brick. Those participants who would rather have stone for their sidewalk, can use egg carton material torn into stone shapes (not included).

The display window is about an inch deep so as to hold merchandise (for 1" Scale, we will update this for ½" and ¼" when dimensions are available).

Project includes:

- Acrylic for the window and the upper portion of the door.
- Striped paper for awning.
- 2 light LED set with switch and battery
- 3-D printed interior ceiling light cover, 3-D printed coach light
- Instruction packet
- 3-D printed doorknob set

****Students will need to supply their own paint, stain, glue, and wallpaper.
