

NAME Day 2021 Tiki Bar Order Form

Tom Walden's Kits – all genuine woods

My kits are typically constructed slightly different from the others – but only to make assembly easier for you. I will provide my kits in only “already cut-to-size” kits – with the option to have them pre-stained with a natural antique oil finish. I make my kits using 4 different genuine woods (no basswood!) for you, in 1” scale only this year - sorry. All are very accurately cut by hand on a very small table saw, or a laser when necessary. Note that you can have your tiki masks engraved from a different wood of your tiki bar itself for contrast purposes. If no selection(s), will match your bar wood selection.
